<b>Resource Material:</b>	<b>This session will include one activity sheet</b>

The world has changed so much so fast. The "Back When" Program is a fun and interactive program that can be viewed virtually or in-person in safe groups.

Dave and Dan's ability to update and bring forward innovative thoughts playfully is unmatched. The use of music, stories, language and experiences is phenomenal. Their travels to so many communities allows them to keep elders' awake and in tune and engaged to the point "where they will want more!"

The program will help to teach words and ways to promote the teachings of "back when" so as not to be blameful and shameful. Elders will engage in organized chat on topics affecting the world around them about kids, internet, drugs & alcohol, bullying, suicide, confidence and so much more.

The program runs for 8 weeks and builds trust, happiness and gives them a certificate of completion that empowers them to be heard, seen and validated for how it was "back when."
