

# CONFIDENCE IN THE WORKPLACE

This program will refresh employee's confidence and reconnect their team allowing participants to share their personal thoughts in a non-management environment.

## DID YOU KNOW?

"You can't help another unless you have helped yourself." This program will re-align teams, allow for deeper personal connections and help your staff to see strengths, areas to grow, areas to re-learn, and so much more.

## HAVE YOU HEARD?

Confidence in the workplace is currently being challenged by the Covid pandemic. Staff are continually having to adapt, almost daily.

The personal and professional lives of staff require more patience and innovative thinking and it is taking its toll on many.

## YES ITS TRUE!

Attendees will connect and learn how to speak to confidence and learn how to transfer the knowledge learned to their clients or co-workers.

This project is a unique twist to gain personal growth on positivity, happiness, and healthy well-being that will benefit staff and teams collectively.

### Dave Jones

is the Founder of Turtle Concepts and has delivered sessions on many topics. Confidence is the key to so much more in life, in relationships, in family, at work, etc.

**Daniel Jones** is the Co-Founder of Turtle Concepts and knows the benefits of confidence. He is a living example of the benefits of intergenerational

"excitement", living a confident life based on the teachings of Turtle Concepts.
